UNION WORKS, MERIDEN, CONN.

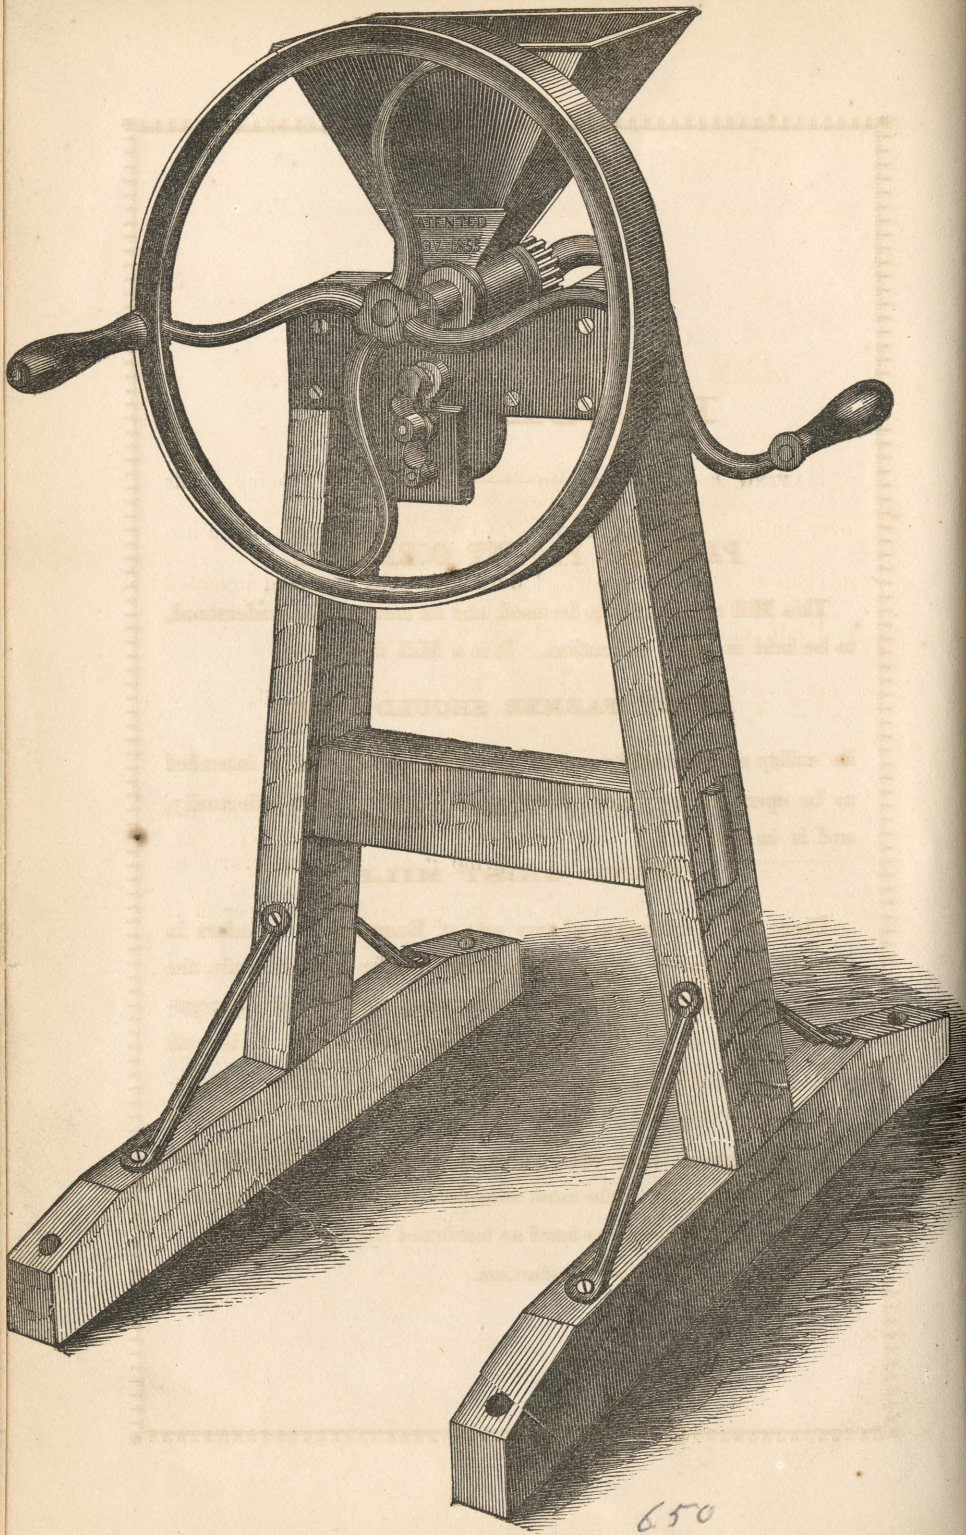

## CIRCULAR.

HAVING been engaged in the manufacture of Coffee Mills over thirty years, and knowing, as we do, that the public are anxious to obtain a good and durable article, we have invented and now offer

### THE BEST MILL IN USE.

We have combined and so arranged two Mills in one (see cut of Patent Union Mill) as to make one Mill crack the coffee or spices, and the other grind it as fine or as coarse as may be desired. The teeth are made sharp and tempered as hard as the hardest cast steel, and all the work about the Mill is done in the most durable manner. No other Mill grinds as fast, and no other Mill turns as easy, in proportion to the quantity ground, as this Mill. The Corn Mill, the Iron, the Wood Back and Box Mills, are all upon the same principle, and are warranted to give satisfaction.

Parker's Patent Corn Mill, \$5.00 each.

## PRICE LIST.

### PARKER'S PATENT CORN MILL.

This Mill needs only to be used, and its merits fully understood, to be held in high estimation. It is a Mill that

#### EVERY FARMER SHOULD OWN,

its utility and durability recommending it to all. It is intended to be operated by hand, turns easy, does its work effectually, and is in reality a

#### HAND GRIST MILL.

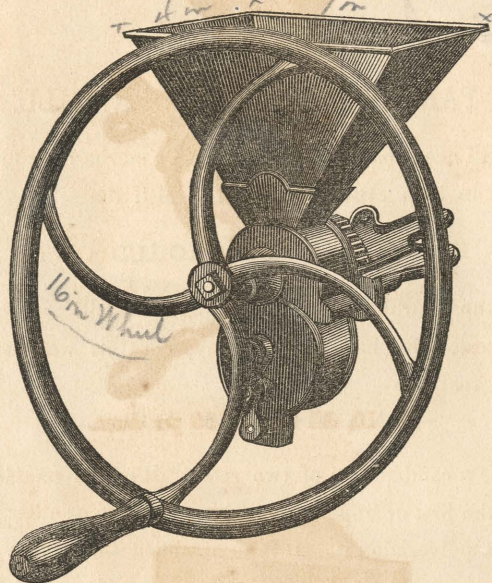

There is a combination of two sets of Runners or Grinders in one Mill, the first or upper set cracking the corn or other grain, the second set pulverizing it. It is so arranged that it may be regulated to grind as coarse or fine as may be desired. It is well adapted to grind coffee, or spices, and can not be excelled in cracking grain for Graham or brown bread.

There is special attention paid to the durability of this Mill, all its parts being made in the most substantial manner; the Runners or Grinders being made as hard as hardened steel.

It is warranted to give satisfaction.

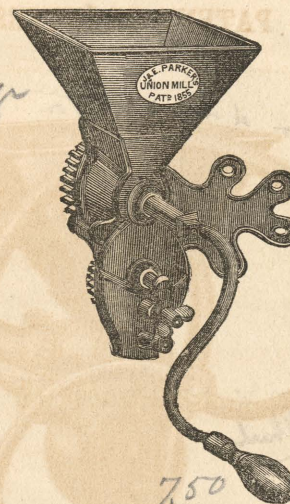

## PARKER'S PATENT PLANTERS' MILL.

In boxes of  $\frac{2}{12}$  dozen, \$30.00 per dozen.

This Mill is especially adapted for Planters, Hotels, Steamboats, Boarding Houses, and Family use.

## PARKER'S PATENT UNION MILLS.

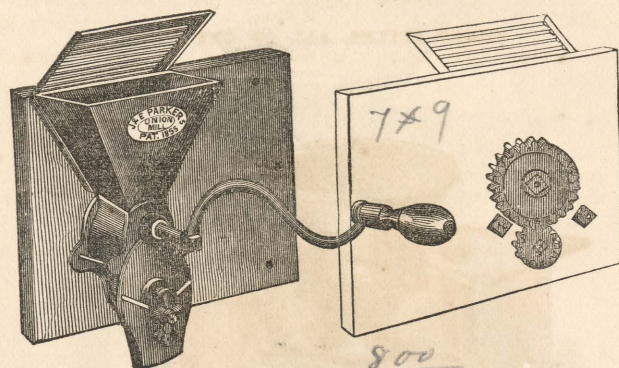

No. 10, All Iron, \$6.50 per dozen.

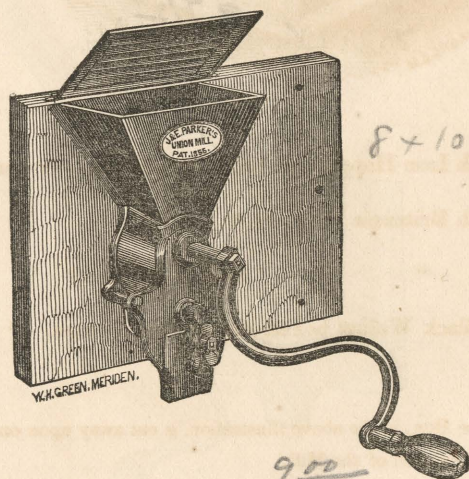

No. 15, Wood Back, \$5.00 per dozen.

## PARKER'S PATENT UNION MILLS.—Continued.

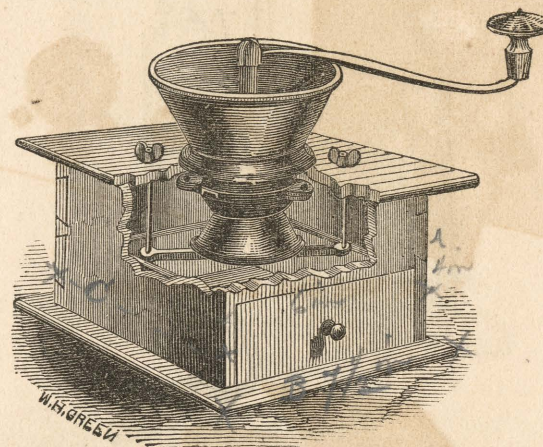

No. 20, Wood Back, \$6.00 per dozen.

No. 30, Wood Back, \$8.00 per dozen.

## PARKER'S PATENT UNION BOX MILL.

THREE STYLES, ALL OF ONE SIZE.

No. 25, with Iron Hoppers, in half dozen boxes, per dozen, \$7.00

No. 35, with Britannia Hoppers, " " " 9.00

No. 45, " " with nice Cherry 14.50

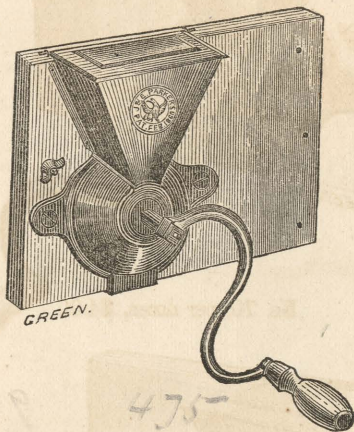

or Black Walnut boxes, in half dozen boxes, " 12.00

NOTE. The Box, in the above illustration, is cut away upon one corner, to show the working part of the Mill.

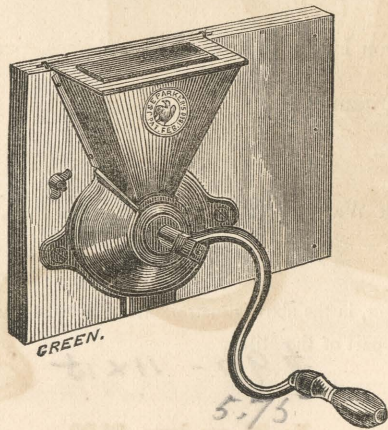

## PARKER'S PATENT EAGLE COFFEE MILLS.

The peculiar advantage this Mill possesses over the ordinary Board Mills is that the regulating screw is on the front of the Mill, and the bearing of the Runner or Grinder is at both ends, doing away with the guard teeth, and so arranged that it can not clog or fill up, so as to prevent grinding.

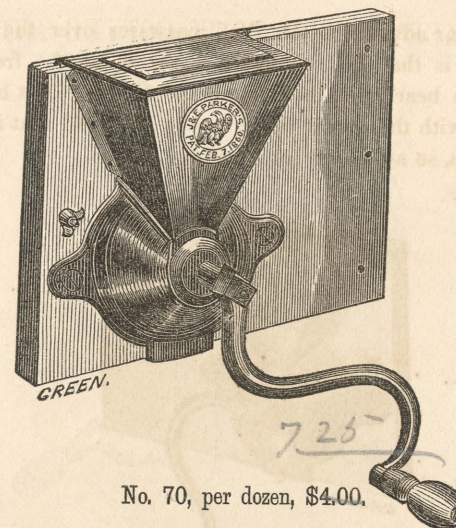

No. 50, per dozen, \$2.50.

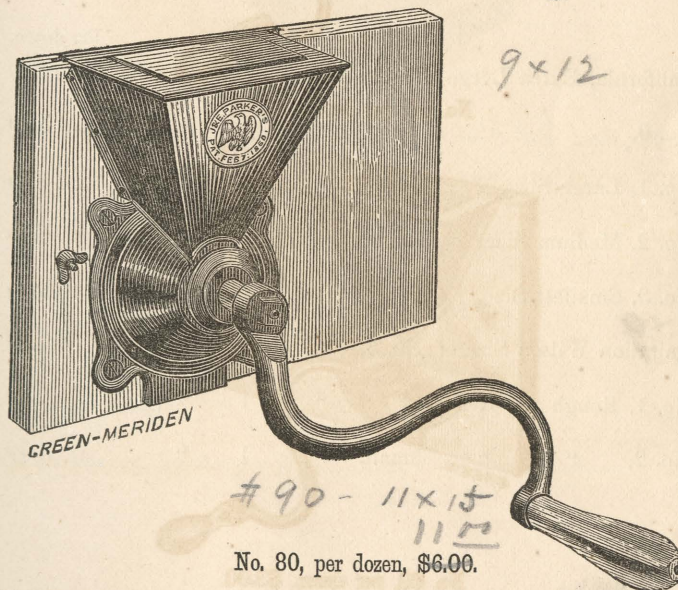

No. 60, per dozen, \$3.00.

## PARKER'S PATENT EAGLE COFFEE MILLS.

Continued.

No. 70, per dozen, \$4.00.

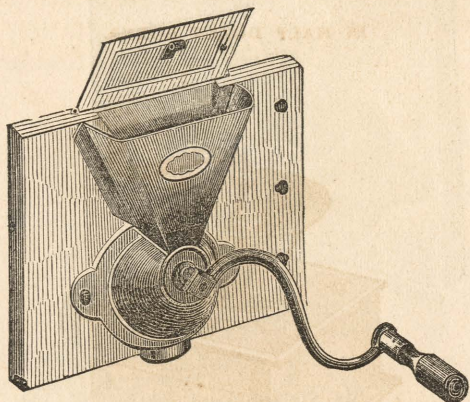

No. 80, per dozen, \$6.00.

## DOCT. C. R. EDWARDS' PATENT COFFEE OR SPICE MILLS.

This is a very desirable Mill for family use; easily put up in any place where sufficient surface can be obtained to form the back, or on a post, with the back attached to the Mill, the same as any other post Mill.

It is easily taken apart by means of the regulating nut, so that the mill can be cleaned, and make one Mill answer for grinding coffee, and all kinds of spices, without waste.

No. 7, without Boards,	-	-	-	per dozen, \$2.25
No. 8,	"	-	-	" 3.35

## ARMY KNIFE, FORK AND SPOON.

This article is made of cast steel, neatly plated with tin, and much more durable than Spoons or Forks made of iron; also, more compact, substantial and convenient than any article of the kind now in market.

It is particularly adapted to the use of farmers, lumbermen, hunters and teamsters, who often take their meals in camp or field. Also, well adapted for use in the kitchen.

Manufactured by Parker & Perkins, and sold by CHARLES PARKER. N. Ames' patent, September 17th, 1861.

Per dozen, - - - - - \$3.00

## PARKER'S PATENT TOBACCO BOXES.

## SILVER PLATED SPECTACLES.—Continued.

Wide Slide Bows.

Narrow Slide Bows.

Long Single Bows.

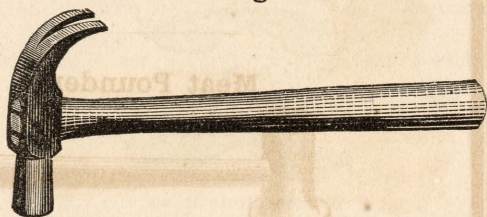

The above Spectacles are made under the direct management of one of the best Opticians in this country, and with improved machinery of his own invention, which is the cause of the extreme low prices at which they are sold, considering the quality of glass, workmanship, &c.

Having spent upward of fifteen years in this particular branch, he has overcome all the difficulties in making and putting together a cheaper article in the same manner as the best of gold and silver Spectacles. They are all made in handsome style, put together with screws, (instead of rivets or imitation screws, as is often the case,) so that the glass can be reset, if broken by accident or otherwise. Every pair is set with good convex glass, (instead of plain glass, as is sometimes done,) imported expressly for them, with particular regard to the ages, so that small orders, generally, will have all ages, from the weakest to the strongest magnifying power.

### VICE STRENGTHENER.

The above cut represents a detached or broken Vise Slide, showing the manner of inserting the "Wrought Iron Strengthener," referred to below.

### PATENT PARALLEL VISES.

Offered to the public with confidence, knowing them to be decidedly the best

#### CAST IRON VISE

manufactured for mechanics' use.

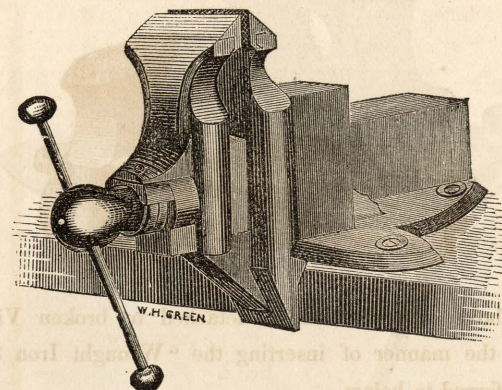

The undersigned has been extensively engaged in the manufacture of Parallel Vises, for ten or twelve years past, but having, on the 20th of June, A. D. 1854, received a patent for the insertion of a

#### WROUGHT IRON STRENGTHENER

within the slide of each Vise, thus doubling their strength; he can assure purchasers that the only objection urged against the utility of his Vises, (their liability to break,) is entirely obviated, whereas Vises made previous to the improvement, have been returned to be repaired almost weekly.

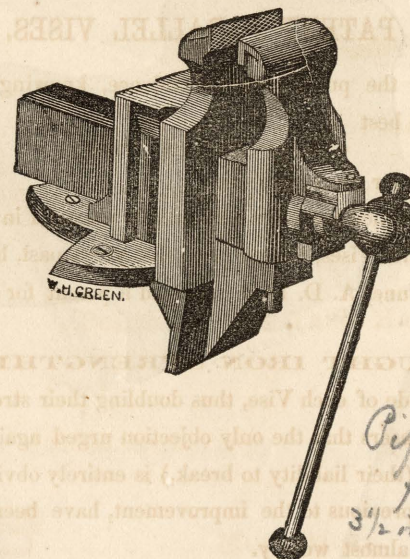

**CHARLES PARKER.**

### PATENT PARALLEL VISES.—Continued.

Filer's Vise.

Length of Jaw, 4 inches, each, \$4.00

No. 1.

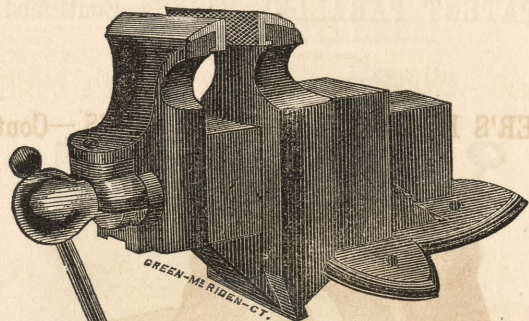

Round Jaws, length of Jaw,  $3\frac{1}{4}$  inches, each, \$3.50

# PARKER'S PATENT PARALLEL SWIVEL VISES.—Continued.

No. 3.  
Round Jaws, length of Jaw,  $4\frac{3}{4}$  inches, each, \$7.50

## COACH MAKERS' VISE.

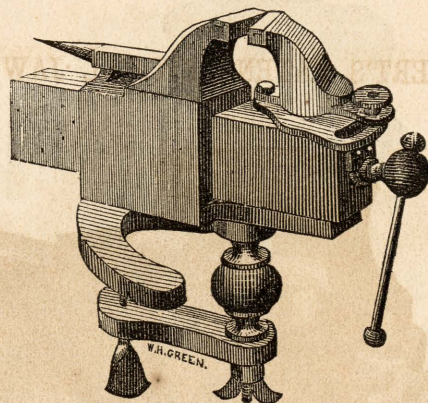

each, \$5.50

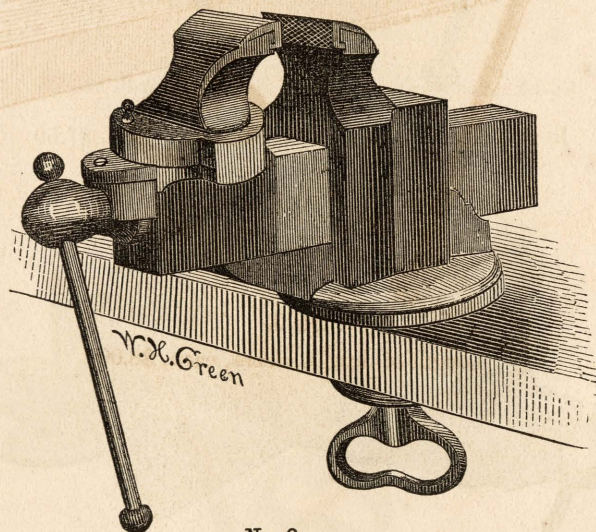

Designed expressly for carriage makers and wood workmen; the Jaws being sharp enables the workmen to use the shave conveniently.

## HURLBERT'S PATENT SWIVEL JAW VISE.

Jewelers' Vise.

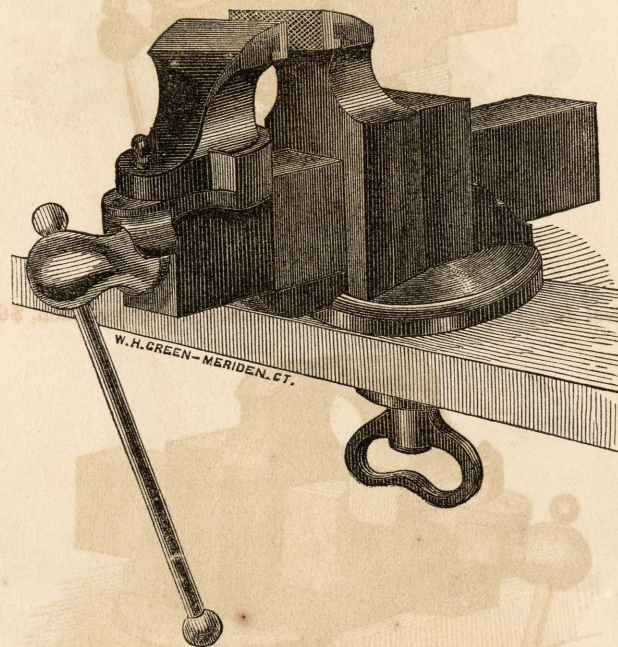

Swivel Jaw, Cast Steel Anvil, length of Jaw,  $1\frac{1}{2}$  inches, each, \$6.00

No. 2.

Length of Jaw,  $3\frac{1}{2}$  inches, each, \$6.50

This Vise can be swiveled on the bench; the front Jaw can also be swiveled, by which means a wedge can be held firmly, which makes it very desirable for machinists and mechanics.

## HURLBERT'S PATENT SWIVEL JAW VISE.

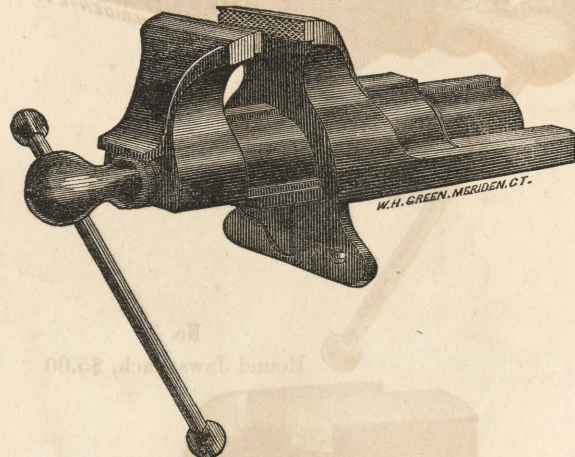

No. 3.

Length of Jaw, 4 inches, each, \$8.00

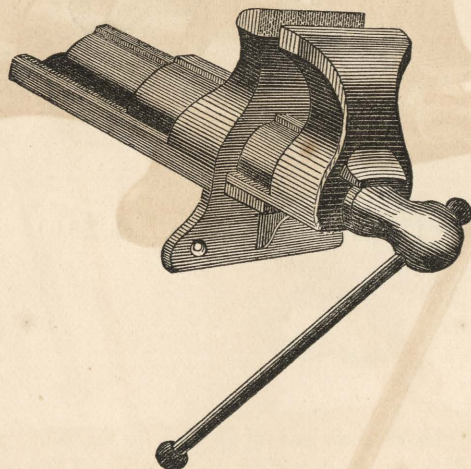

**OVAL SLIDE VISE.**

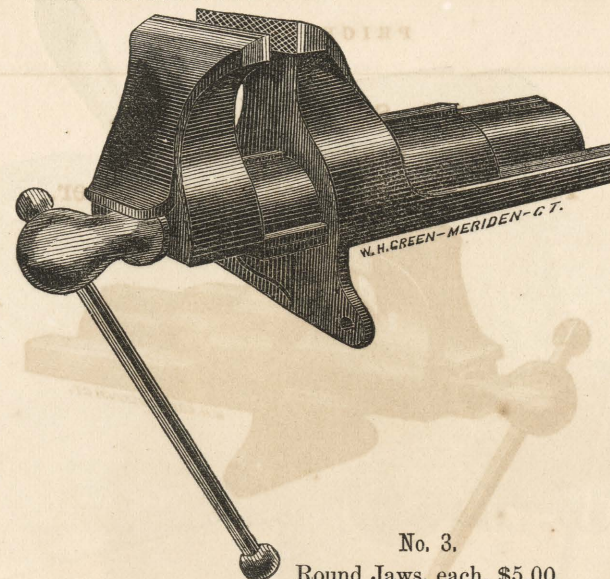

With the improvements of the  
Patent Wrought Iron Strengtheners.

No. 3.  
Round Jaws, each, \$5.00

No. 4.  
Round Jaws, each, \$8.00

## PARKER'S PATENT RIVETING VISE.

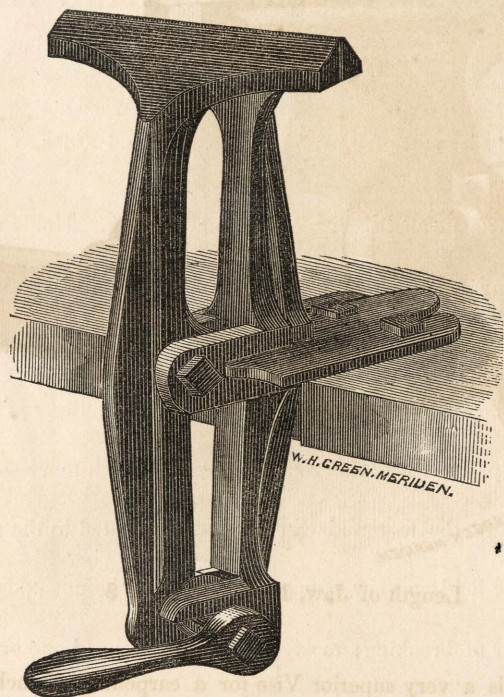

(See cut on page 56.)

Length of Jaw,  $5\frac{1}{2}$  inches, weighs 100 lbs.

This Vise is made very strong for riveting. Holds whatever may be put into it much more firmly than the ordinary Vise; has a step which can be moved up or down to accommodate the length of rod to be riveted; it holds very firm without the rod's resting on the step, but when the rod thus rests is much more solid; it is worked with the foot and can be easily adjusted to the piece desired to be held; a very strong pressure may be put upon it without danger of breaking; most manufacturers need one or more of this kind of Vise.

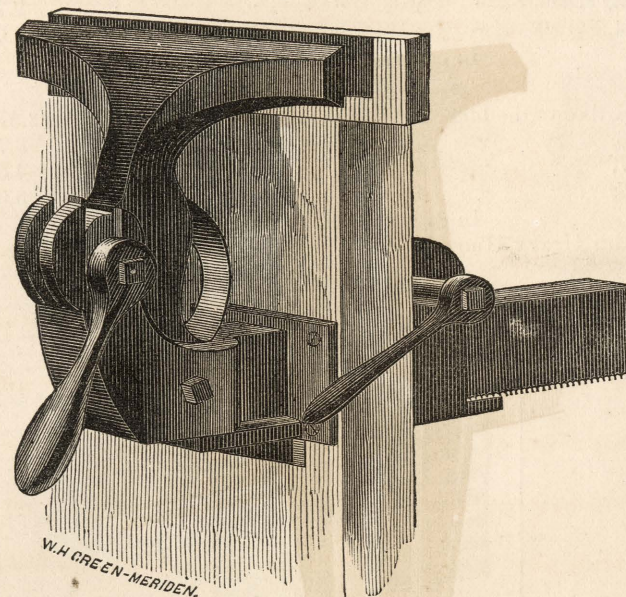

## SAW FILERS' VISE.

Length of Jaw, 9 inches, each, \$

This Vise is made expressly for holding saws for filing. The Jaws are faced with leather; holds the saw very tightly and avoids the danger of springing it. Every carpenter should have one.

## CARPENTERS' BENCH VISES.

Length of Jaw, 10 inches, each, \$

This is a very superior Vise for a carpenter's bench; can be easily adjusted for any thickness of board or plank; the Jaws are faced with leather, which prevents the board being marked while working it. Every carpenter's bench should be supplied with one; they are much more convenient than the bench-screw and far superior.

**PARKER'S PATENT BLIND HINGE AND FASTENING.****For Wood Buildings.**

No. 1,	throws the blind 1 inch from the casing, per doz. sets,	\$2.25
No. 2,	" " 1½ " " "	2.50

In cases of 4 dozen sets each.

Extra Heavy Hinges of the above sizes, 10 per cent. advance.

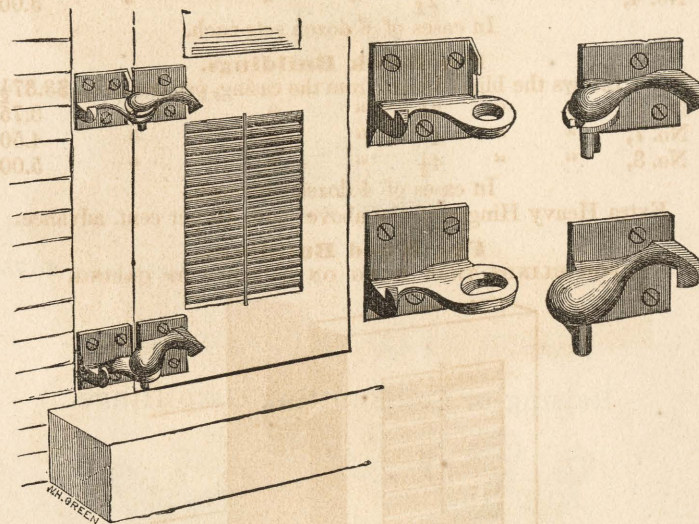

**For Wood Buildings.**

FOR BLINDS THAT HANG ON OUTSIDE OF CASING.

No. 20, throws the blind 1 inch from the casing, per doz. sets, \$2.25

In cases of 6 dozen sets each.

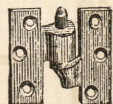

**CHARLES PARKERS' PATENT BLIND HINGE AND FASTENING.**

(For prices see page 60.)

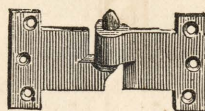

These Hinges and Fastenings having now been in use for ten years, and having obtained a premium at the Fair of the American Institute, also at the Connecticut State Fair, as being the best Hinge in use, the subscriber feels confident that where they are once introduced, they will supercede all others. They are warranted not to break in the strongest wind, are easily put on, and the blind can not be thrown off in opening and shutting. The large or oblong eye belongs to the lower hinge. The blind may rest on both upper and lower hinges, but *must* always rest on the lower hinge, which should be put on first; the half of the hinge which has the pin on, should be put on the blind with the pin pointing down.

## Loose Joint Blind Butts.

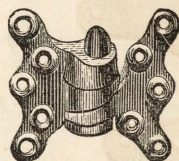

3 inch, - - - per dozen pairs, \$0.50

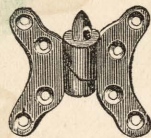

5 inch, - - - per dozen pairs, \$0.75

## Raising or Self-Shutting Gate Hinge.

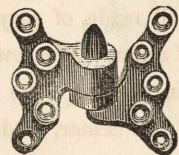

No. 1, per dozen pair, \$3.40

### Bailey's Window Spring and Sash Holder.

FOR EITHER UPPER OR LOWER SASH.

This is decidedly the best Window Spring and Fastener in use. It holds the sash at any point desired, keeps it firm and free from rattling, does away the necessity of weights, is easily put on, and not liable to get out of order.

With Plated Face Plate,	-	-	per gross, \$12.00
"	"	without Holders,	- " 9.00

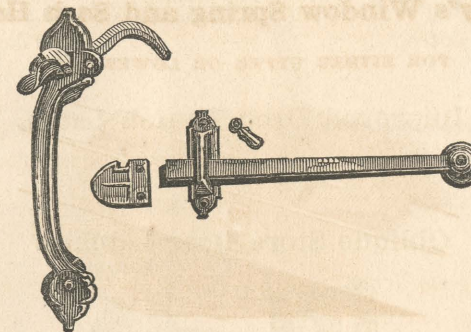

### American Scissors and Shears.
